Mariner’s Choice

Product Description

Never-Seez® Mariner’s Choice is a heavy duty anti-seize and extreme pressure lubricant formulated to assure absolute parts protection against seizure, galling and corrosion in fresh and salt water environments.

Mariner’s Choice offers unparalleled resistance to water washout and the best protection in continuous high moisture environments both above and below water lines.

Product Benefits

- Prevents seizure at temperatures up to 2,450°F (1,343°C)
- Prevents galvanic corrosion in salt and fresh water environments
- Superior resistance to water washout and water spray
- Excellent extreme pressure lubricating properties
- Low torque factor
- Compatible with soft metals
- Contains no copper

Product Applications

- Blips pumps, screw shafts, prop shaft bearing housing, winches, cables, anchor lines, propellor studs, rigging and hoist cables
- Also recommended for steel mills, suspension bridges, wind turbines, offshore rigging and other applications exposed to harsh salt water and fresh water conditions.

Limitations

- Not recommended for use in pure oxygen and/or oxygen rich systems.
- Not recommended for use in acidics environments.
- (Never-Seez High Temperature Stainless or Never-Seez Pure Nickel Special is suggested for these applications.)
- Never-Seez Master’s Choice is NOT recommended for high speed bearing applications.
- (Never-Seez Red Bearing Lubricant is suggested for these applications.)
- In applications where indirect food contact is possible, use NSF All approved Never-Seez White Food Grade.

Directions

Apply liberally to all threaded areas of nuts and bolts. Before reapplication, clean threaded areas with a wire brush or mineral oil.

Other Anti-Seize Lubricants

- Regular Grade
- High Temp Bearing Lubricant
- High Temp Stainless
- Pipe Compound with Teflon®
- High Temp Stainless, Nuclear Certified
- Blue Moly Lubricant
- Black Moly
- Red Bearing Lubricant
- White Food Grade with PTFE
- Pure Nickel Special, Nuclear Grade
- Pure Nickel Special
- Heavy Metal Free

Use in accordance with Material Safety Data Sheet.
**Mariner's Choice**

**Product Description**

Never-Seez® Mariner's Choice is a heavy duty anti-seize and extreme pressure lubricant formulated to assure absolute parts protection against seizure, galling and corrosion in fresh and salt water environments.

Mariner's Choice offers unparalleled resistance to water washout and the best protection in continuous high moisture environments both above and below water lines.

**Product Benefits**

- Prevents seizure at temperatures up to 2,450°F (1,343°C)
- Prevents galvanic corrosion in salt and fresh water environments
- Superior resistance to water washout and water spray
- Excellent extreme pressure lubricating properties
- Low torque factor
- Compatible with soft metals
- Contains no copper

**Product Applications**

- Bilge pumps, screw shafts, prop shaft bearing housing, winches, cables, anchor lines, propelle stud, rigging and hoist cables
- Also recommended for steel mills, suspension bridges, wind turbines, offshore rigging and other applications exposed to harsh salt water and fresh water conditions.

**Limitations**

- Not recommended for use in pure oxygen and/or oxygen rich systems.
- Not recommended for use in acidic environments.
- Never-Seez High Temperature Stainless or Never-Seez Pure Nickel Special is suggested for these applications.
- Never-Seez Mariner's Choice is NOT recommended for high speed bearing applications.
- Never-Seez Rod Bearing Lubricant is suggested for these applications.
- In applications where indirect food contact is possible, use NSF H1 approved Never-Seez White Food Grade.

**Product Benefits**

- Regular Grade
- High Temp Bearing Lubricant
- High Temp Stainless
- Pipe Compound with Teflon®
- High Temp Stainless, Nuclear Certified
- Blue Moly Lubricant
- Black Moly
- Red Bearing Lubricant
- White Food Grade with PTFE
- Pure Nickel Special, Nuclear Grade
- Pure Nickel Special
- Heavy Metal Free
- Never-Seez Compound
